

BUSINESS EXCELLENCE AWARDS 2026

Empowering Business Leaders
for a Sustainable Future...

MESSAGE FROM THE CHAIRMAN
Green Synergy Business Excellence Awards
Empowering Business Leaders for a Sustainable Future

Sri Lanka's future depends on businesses that combine ambition with responsibility, innovation with integrity, and commercial success with lasting value for society. Across our country, micro, small, and medium enterprises demonstrate these qualities through their determination to create opportunities, sustain livelihoods, and serve their communities. Their achievements deserve recognition, and their potential deserves encouragement.

It is with great pleasure that I welcome the Green Synergy Business Excellence Awards, an initiative dedicated to recognising achievement and promoting higher standards of business practice. Through this programme, we seek to encourage entrepreneurs and business leaders to strengthen their organisations, develop their people, and pursue growth that is both resilient and responsible.

Our theme, "Empowering Business Leaders for a Sustainable Future," reflects a clear conviction: business excellence must be measured by more than financial results alone. It must also be evident in the quality of leadership, the integrity of governance, the confidence of customers, the wellbeing of employees, and the care shown towards the environment and society. Sustainable success emerges when these commitments become part of everyday business decisions.

As an educational institution, IMBS Green Campus has an important role in connecting knowledge with practice. Green Synergy provides an opportunity to strengthen the relationship between education, industry, and society, bringing together academic insight and entrepreneurial experience. Such collaboration can support practical learning, develop capable professionals, and help businesses respond thoughtfully to changing demands. The awards programme is designed to recognise excellence across twenty business sectors through a structured assessment of organisational performance and supporting evidence. Its broader value lies in encouraging reflection, benchmarking, and continuous improvement. I therefore invite every participating organisation to regard this process as an opportunity to understand its strengths, identify areas for development, and establish a clearer direction for the future.

The credibility of recognition rests on the integrity of the process behind it. Fairness, consistency, and careful evaluation must remain central to our approach, ensuring that the achievements celebrated through Green Synergy are meaningful to participants and worthy of public confidence. I extend my appreciation to the organising committee, assessors, judges, partners, and all those contributing to this initiative. Above all, I commend the entrepreneurs and their teams whose dedication gives purpose to these awards.

May Green Synergy inspire business leaders to pursue excellence with confidence, lead with responsibility, and create a sustainable future through the value they bring to others.

Senior Professor Sarath Amunugama

01. ABOUT GREEN SYNERGY EXCELLENCE AWARDS

The Green Synergy Excellence Awards is a platform for learning, benchmarking, and recognition, aspiring to build stronger connections between education, industry and society, while contributing to the development of a generation of responsible entrepreneurs, business leaders and professionals who can create sustainable value and meet the challenges of the future.

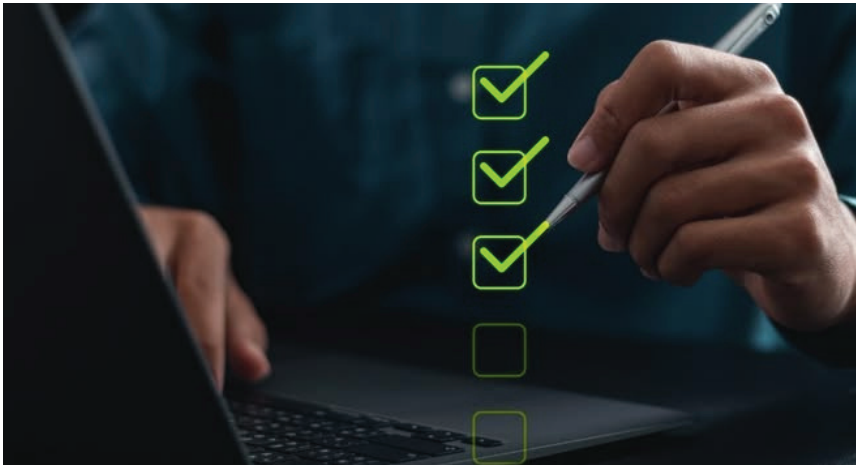

The Green Synergy Excellence Awards programme aims to:

1. Recognize organizations and individuals who demonstrate outstanding performance and professional excellence.
2. Promote responsible leadership, innovation, sustainability, sound governance, and employee development.
3. Appreciate positive contributions made by organizations and professionals to society and the national economy.
4. Encourage a culture of continuous improvement among Sri Lankan enterprises and professionals.
5. Evaluate applicants through a structured, evidence-based, and transparent assessment process.
6. Help participants identify their strengths and areas requiring further improvement.
7. Encourage organizations and individuals to progress towards higher standards of business, professional, and sustainable excellence.
8. Create a credible national platform to recognize, promote, and share exemplary practices and achievements.

02. OBJECTIVES OF BUSINESS EXCELLENCE AWARDS

S/N	Objective	Details
1	Recognize Business Excellence	Recognize Sri Lankan micro, small, and medium-sized enterprises and their teams that demonstrate outstanding performance, sustainable growth, innovation, and measurable results.
2	Promote Industry Best Practices	Encourage the adoption of sound corporate governance, ethical leadership, effective management, operational efficiency, and responsible business practices.
3	Encourage Continuous Improvement	Motivate participating organizations and other businesses to improve their standards, strengthen performance, and learn from recognized industry leaders.
4	Advance Sustainability and Social Responsibility	Highlight organizational commitments to environmental protection, sustainable business practices, social responsibility, employee welfare, and positive community impact.
5	Strengthen Market Reputation	Build public confidence in Sri Lankan enterprises, enhance brand value, increase market visibility, and support opportunities to attract customers, partnerships, and future investment.
